E. W. COCKERLINE

as

Chairman of Civil Club

2T4

It is the duty of 2T4 to elect the
ablest man in the year for the class
Presidency.

Special adaptability for the duties in-
volved in this office have already been
demonstrated in a marked manner by
G. W. Smart.

He has announced his intention, if
elected, that the frosh initiation should
be conducted in a thoroughly organized
and competent manner; that the year
functions shall maintain and, if pos-
sible, surpass the high standard already
set by the present year.

In accepting the nomination he did
so giving as his reason the following:
"It is my earnest desire that the spirit
of fellowship should permeate the whole
year, so that all sections will be more
closely allied in all the activities, so
that by co-operative efforts 2T4 on its
graduation will not go out and be for-
gotten, but shall live and be known by
the standard of its School spirit."

Literary interests will not be sacri-
ficed by him for athletics, nor will ath-
letics go by the board. And at the
same time by his various executive
activities he has demonstrated that all-
round ability to perform adequately the
duties devolving upon a presidential in-
cumbent.

LET GEORGE DO IT.

 Civil Club Representative—P. J. Culliton
 Mining Club Representative—A. E. O'Brien
 Electrical Club Representative—M. C. Stafford
 Chemical Club Representative—A. D. R. Fraser
 Architectural Club Representative—T. L. Young

EDITORIAL

On the first page of Friday's issue of the Toike Oike will be given the full list of offices to be filled and the candidates running for each office. It is felt that the elections will be voted upon more intelligently by all of us if we have several hours in which to think over the candidates and to find out something about each one of them, that we have a vote upon.

In the past it has too often been the case, that when a man received his blank ballot, in the middle of a shoving crowd, he found upon it many names of men of whom he knew absolutely nothing, and about whom he could find out nothing in the excitement of the election.

Many an innocent freshman has had to toss a coin, or go "Eeny, meeny, miney mo," "Yes, we did that; we don't believe in tossing coins—that's gambling."

This year, however, there need be no such uncertainty. Find out the offices for which you have a vote, and vote intelligently for the men running for those offices. Do not vote for a man who is too busy in other activities to devote much time to his job. Every job in the whole School can be, and usually is, just as big and as active as the man who fills it.

To the freshmen—Everyone in School votes upon the President, the Vice-President, the Treasurer, the two Secretaries, and the Curator of the Engineering Society. The individual year vote for their year President. All the men in Departments 3 and 7 vote for the E. and M. Club Chairman, and similarly for the Civil Club Chairman, etc. All members of the Debating Club vote for the Debating Club Chairman, while all those who have paid their athletic fee will be entitled to vote for the President of the Athletic Club.

CANDIDATES!

Will those taking space in the Toike Oike hand in their write-ups by Thursday noon without fail. Please call at the Supply Department and pay for your space on Saturday morning.

FINANCIAL STATEMENT OF DEBATING CLUB

for

CURATOR

REMEMBER! This is the Big Day in the Hart House Elections

We are a poor downtrodden faculty,—the worm must turn, and every man-jack of us must vote, and vote solidly for school men, if we are to obtain our reasonable representation on the House and Hall Committees. Last year we only got ten out of the twenty.

Don't forget the Billiard and Camera Committees on Friday and Monday, and remember you don't need to vote for ten men unless you like, so don't give other faculties votes.

"OUR MOTTO IS MEEKNESS AND PEACEFULNESS"

Hart House Elections

PUT

G. F. BRYANT
